

# Monthly cleaning checklist

| Task                                                                                        | Week | Done |
|---------------------------------------------------------------------------------------------|------|------|
| <input type="checkbox"/> Test every smoke alarm                                             |      |      |
| <input type="checkbox"/> Change the furnace or air conditioner filter, or as its maker says |      |      |
| <input type="checkbox"/> Empty and wipe the fridge shelves, drawers and door seals          |      |      |
| <input type="checkbox"/> Clean inside the microwave and the oven                            |      |      |
| <input type="checkbox"/> Wipe cabinet fronts, handles and the range hood                    |      |      |
| <input type="checkbox"/> Vacuum under furniture and sofa cushions                           |      |      |
| <input type="checkbox"/> Wash the shower curtain and bath mats                              |      |      |
| <input type="checkbox"/> Dust light fixtures and ceiling fans                               |      |      |
| <input type="checkbox"/> Descale the kettle or coffee maker                                 |      |      |
| <input type="checkbox"/> Check the dryer vent and duct for lint                             |      |      |
| <input type="checkbox"/>                                                                    |      |      |
| <input type="checkbox"/>                                                                    |      |      |
