

My food chain

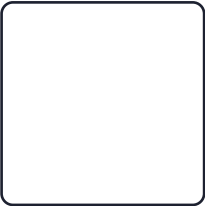

Draw what lives in a place you know, from the producer at the bottom to the top predator, and name each one.

Where does your food chain live?

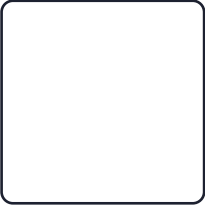

Top predator

What it eats:

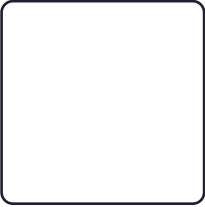

Secondary consumer

What it eats:

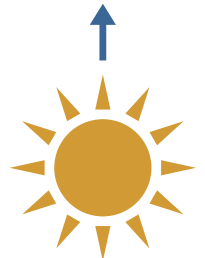

Primary consumer

What it eats:

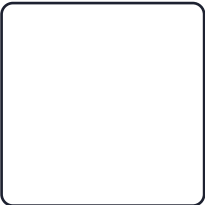

Producer

How it makes its food:

The Sun

Decomposer

What it breaks down:

Each arrow points to the eater. The levels follow NOAA, "Aquatic food webs".
